ATHLETIC SPORTS.

The Intercollegiate Contests Under the Direction of the Y. M. C. A. There were between six hundred and seven hundred people at Y. M. C. A. vesterday afternoon to witannual intercollegiate field-day events. The various events were hotly contested, the rivalry between the colleges being great. Rose Polytechnic Institute won nine first places and the intercollegiate championship. Wabash was second, with six first places. and DePauw third, with four. There was much excitement in theone-fifth-mile bicycle race, when Ed Hulman, of Terre Haute, ran over the embankment at the turn, and it was feared he was hurt, but, fortunately, he escaped injury. One of the men in the tug-of-war contest fainted from exhaustion but soon came around all right. The officers were: Referee, George Reisner; judges, William A. Van Baren and Charles Tarleton: clerks, James Barnitt and Dr. Ralph Perry: starter, W. A. McCulloch; time-keeper, W. Clark. Followin g are the

LOCAL BASE-BALL.

The Shamrocks, in a Good Game, Defeat

the Independents. But a handful of people witnessed the game at League Park yesterday afternoon, but those who went out were amply rewarded, for they saw a very pretty contest. It was a hard-fought game throughout, and the visitors won it by a scratch. There was not a moment from start to finish that the result was not in doubt, and the crowd, small though it was, furnished plenty of enthusiasm. The Cincinnati men led off in a manner that dampened the arder of the spectators for a few moments, scoring three unearned runs in the opening inning on McGinnis's single, a fumble by Campbell, a wild throw and some erratic pitching by Slagle. The latter's work during the remainder of the game was very fine, but the two wild-pitches in the first inning were costly. In the second inning the home team showed a disposition to even things up, and almost succeeded. Doremus got a rattling two-bagger to center, and Schaub a base on balls. advanced by a McKenna's single right sent them home. The side was re-

tired before any more good work could be accomplished. In the third inning McGinn. while at bat, was struck in the head by a foul ball, which glanced from his bat, and . Burke took his place.

Neither club scored again until the eighth inning, when Indianapolis, with two out, pulled alongside Cincinnati, to delight of the crowd. Newman hit a slow grounder toward | force and was carried off in great agony. third and beat it to first. He stole second and scored on Schaub's single to right.
The latter was left by Weihe's catch of
Campbell's liner. The Cincinnatis won the game in the tenth through an error of Mckenna, who failed to gauge Williams's fly, and, starting for it too late, dropped it, the runner reaching second. Lucky's fly was taken in pretty style by Doremus. McGinn, who had resumed his place in the game, hit safe to center, Williams going to third. Hyan bunted a little grounder toward first, and Campbell picking it up threw it to the plate to catch Williams. Lyons put the ball on him just as his hand touched the plate, but the number called

close that had there been anything at stake there would have been some lively kicking.

The battery work of Slagle and Lyons was decidedly the feature, the Cincinnati men getting only two hits off the pitcher. Lyons's catching was almost faultless, and he did some hard hitting. Schaub's third-base play was very fine, his one error being on a grounder which should have been called foul, as it struck outside the base line. Newman's work at short was good, and Doremus had two very pretty catches in left. After the costly error in the first inning, Campbell played a nice game at first. For the visitors, Wetterer, at short, and Williams at second carried off the honors. McGinn did the only safe hitting for them. Lucky's catching was up to the mark. Burke went into the box in the ninth inning, as Roan had to leave for Cincinnati.

Martin After Players. John Martin is negotiating with Ryan, first baseman, Burke, pitcher, and Lucky, catcher, of the Shamrocks, whom he wants to sign for the new Interstate league club. He would also like to secure Wetterer, the clever short-stop of that team, but the latter would not listen to any proposition to leave Cincinnati. The Galesburg peo-ple are disposed to hold on to their players, and Mr. Martin may have some trouble securing the six men he desired to sign. If he fails to do so he will make up his team from the talent on hand and what Cineinnati players he can secure. If would be well for him, if possible, to make a fight for a few of the Galesburg men, as it is said three or four heavy hitters are in that

AMATEUR ATHLETES OF AMERICA.

Records Broken at the Annual Field Day the Intercollegiate Association. NEW YORK, May 31 .- The fifteenth annual field meeting of the Intercollegiate Association of Amateur Athletes of America was held this afternoon at Berkeley Oval. Fully 8,000 spectators enjoyed the sport, and nearly every one of the fifteen colleges connected with the association was well represented. The principal feature of the day's sport was the breaking of the record for 220 yards hurdle, by J. P. Lee, of Harvard, who covered the distance in 2514 seconds. Other features were the running Sherrill in the 100 and 220 yards events, of Dohm in the half-mile, and Williams in both hurdle races. Five intercollegiate records were smashed by Lee, Dohm, Sher-rill and Williams. W. B. Curtis, N. Y. A. C., was referee. The cup for the college scoring the most points was captured by Harvard. The summaries are as follows: One-hundred-yard Run-C. H. Sherrill. Yale. first; Luther Casey, Princeton, second; F. W. Robinson, Yale, third. Time, 101-5 seconds.

Two-hundred-and-twenty-yard Run - C.- H. Sherrill, Yale, first; L. H. Carey, Princeton, second; F. W. Robinson, Yale, third. Time, 221-5 Four-hundred-and-forty-yard Run — W. C. Downs, Harvard, first; J. P. Roddy, Princeton, second; T. J. Stead, Harvard, third. Time, 50 3-5

Hallock, of Amherst, who was close behind, rode over him and was in turn thrown, but not badly hurt. This is the second time that Davis and Clark have fonled at an intercollegiate meeting. The Yales are very bitter against Davis in consequence, but it was impossible for him to have fouled the other men, as he was leading. In the sec-ond head P. W. Davis, also of Harvard, was leading, with Wade, of Yale, a close second. Wade had the pole and shouted to Davis to keep away. Davis ran him into the turf and he was thrown with terrible

Will Continue the Original Schedule. NEW YORK, May 31 .- In response to a call issued by Secretary Brunell of the Player's League, there was a meeting last evening in this city, which was attended by nearly all the delegates of the eight Players' clubs. While it was stated during the day that there would be no discussion about changing the schedule. it was decided by a vote of six to none to adhere to the arrangement of games perfected in March, and in doing this the league effectually puts at rest all reports and rumors of a contrary nature. The delegates expressed themselves as pleased with the showing of the clubs, and while appreciating the fact that there had been a falling off in attendance throughout the country, they looked for an improvement in the near future. Other business of a minor nature was transacted, and thelleague adjourned at midnight. The central board of directors held a conference at the Murray Hill Hotel this morning. INDIANA LEAGUE.

Peru Defeats Kokomo in an Interesting and Hotly-Contested Game.

Special to the Indianapolis Journal. PERU, May 31.—The game with Kokomo to-day was a remarkably hard fought and interesting contest. The score was twice tied. and Peru only won by hard batting, close playing and a lucky bunching of hits in the eighth inning. Conn, Peru's new pitcher, showed up remarkably well, striking out twelve men. O'Connor won laurels in the field, and came to the front with the stick at several critical points. Farrell got in a three-base hit and a double play. Kiner, of Kokomo, made a home run, and Raffert did fine work behind the bat. Attendance, 400. Score:

BLUFFTON. 19; MUNCIE, 5. Special to the Indianapolis Journal. MUNCIE, Ind., May 31 .- Muncie lost another game of ball to-day, because of having no pitcher. Goar's arm is sore, as is Galligner's, leaving but McGinnis to do the work, which he has done every other day since the season opened. Left-fielder Blandy was put in the box for the home team, and before three men were out, in the first, tweive hits and thirteen runs NEWARK, N. J., May 31.—One thousand men on wheels yesterday saw the twenty-five-mile bicycle record broken one minutes in the box, and did fine work at fooling the big batters, who got but five hits off him. Aydelott, for Bluffton, was hit rather hard. The visitors are jubilant touched the plate, but the umpire called men on wheels yesterday saw the twenty- hits off him. Aydelott, for Bluffton, was him safe, and the game ended. Williams five-mile bicycle record broken one minute hit rather hard. The visitors are jubilant made a great slide, but the decision was so and forty-five seconds, from one hour and to-night over the victory that puts them in

the lead, and Muncie consoles herself that Anderson came down with her. Attend-ance, 400. Ecore:

Marion, May 31 .- The Marion ball-team

"thrashed the ground" with the Elkhart aggregation to-day, winning by a score of eleven to nothing. The home club fielded sharply and batted vigorously, while the

play of their opponents was listless and marked with numerous errors. Hughey pitched a great game for Marion, holding the visitors down to four hits. The great play of the game, and one of the finest yet seen on the grounds was the fielding of a hot grounder by Bamburger that seemed a sure base-hit. Have the Champions Been Sold?

Special to the Indianapolis Journal. MUNCIE, May 31 .- It is rumored here tonight that Lafayette has purchased the Bluffton team and Bluffton's franchise in the Indiana League, and that the transfer will be made next week. Three players, two of whom form a crack battery, it is said, will not go because they have no contract with Bluffton and do not like Lafayette. Muncie will try hard to gather them in.

Westerns Defeated at Franklin.

Special to the Indianapolis Journal. FRANKLIN, Ind., May 31 .- The "Eccles," of this city, and the "Westerns," of Indianapolis, played a good game of ball at the ball grounds here this afternoon. The contest was close from the start, the home club having the lead. The score stood 6 to 7, in favor of the "Eccles." Batteries, Elder and Guyer for the "Westerns;" Dunlap and Hamilton for the "Eccles." Umpire, Warrenberg.

Thorntown, 12; Lafayette, 9.

Special to the Indianapolis Journal. THORNTOWN, Ind., May 31.—There was a game of ball played here to-day between Lafayette and Thorntown, which was won by Thorntown. Score: Batteries—Thorntown, Neal and Laurimore; Lafayette, Hamilton and McNarey. Struck out— By Neal, 16; by McNarey, 5.

REVIEW OF THE WEEK. Decoration Day Receipts Will Give the Broth-

erhood Renewed Vigor. The senational story of the week concerning a meeting of the Brotherhood to consider ways and means to continue the fight is denied by that organization's leaders, who assert the meeting was called to discuss other matters, among them an invitation from two League clubs looking to the avoidance of complicating dates. Just how two League clubs have any authority to act is not explained by the Brotherhood men. The Decorationday receipts will go far toward carrying the new organization along, and will prob-ably tide it over until July 4, when another pleasant day will give it a new lease of life. The Western trip is awaited with much curiosity. The League attendance on Decoration day was good, though it fell behind the Brotherhood's—that is, on the

face of the returns—several thousand.

New York has been a sore disappointment the past week, having dropped four straight games to Cincinnati. The Indianapolis people wanted to see their former representatives defeat the Porkopolitans worse than any other club, and a team that can't beat Cincinnati does not stand much chance of gaining the affections of the Hoosiers. Philadelphia is in the lead, hard pushed by Brooklyn and Cincinnati. These two clubs tied for second place, with Chicago a fairly good fourth, and New York fifth. Boston does not get ahead with much alacrity, while Cleveland and Pittsburg bring up

the rear, as usual. Boston holds the lead in the Brotherhood race, with Brooklyn right on her heels.

New York is third and Chicago close up in fourth place. Pitteburg and Buffalo are at over. The neck is cut as described, and the end of the procession, as shown in the following tables:

EVENTS OF THE TURF. Three Favorites Out of Five Win at the

Latonia Jockey Club Track. CINCINNATI, May 31 .- A dark, heavy sky lowered on Latonia, this afternoon, but no rain fell, and the track was in excellent condition. Three favorites won in the five races, but considerable money was lost on Longshore in the third, and Georgetown was somewhat of a surprise in the last race. Longshore has been sold to Scoggan Bros., and ran under their colors to-day. First Race—Selling; purse; for three-year-olds and upward; one mile and a sixteenth. Pluto was first away, with hope-ful second. At the stand Alta took the lead, and held it until past the quarter-pole, when Silver King, who had been running second from the stand, got first place and kept it until near the wire, but Hopeful came up in time to gain the victory by a length; Silver King second, Castaway third. Time, 1:5112.

Second Race—purse; for two-year-old maiden fillies, to carry 105 pounds; four furlongs. After half an honr's delay the plunging, rearing horses were finally started, with Anne Elizabeth a length in advance of the others. Near the finish, when all were whipping, Miss Hawkins made a vigorous effort, and Anne Elizabeth with difficulty won by a head; Miss Hawkins second, Sister Linda third. Time, :5012. Third Race-Sweepstakes; for three-yearolds and upward; one mile and seventy yards. Lillian Lindsay showed the way for

three-quarters of a mile, but in the stretch Longshore and Cecil B. began to push forward, Cecil B. drawing away from the others, and winning easily by three lengths; Longshore second, Ed Hopper third. Time, Fourth Race-Purse; for three-year-old fillies; one mile. Rainbow dashed away when the drum tapped and led by a length and a half until near the stretch. Here

Daisy F., the favorite, moved up and Rainbow began to whip. At the finish Daisy F., slipping ahead of the others, obtained first place; Julia Magee second, Camilla third. Fifth Race—The Harold stakes; for two-year-olds; five furlongs. Gascon made all the running to the three-quarters, where Georgetown began to close on him, and in a close finish Georgetown won by a neck; Gascon second, Allan B. third. Time, 1:0234.

\$10,000 Won by Fides at Morris Park. MORRIS PARK, May 31 .- After the immense throng of yesterday it was expected on our hogs, and endeavor to breed so as to that the attendance to-day would be light, secure it, but we must not overlook that

but such was not the case by any means. From 10,000 to 12,000 persons were present. The track was tighting fast. First Race—Sweepstakes; \$15 each, with \$750 added; one mile and a furlong. Eon won by two lengths, with Prince Royal second, the same distance before Brother

Ban. Time, 1:55. Second Race-The Ferncliffe Welter handcap; \$20 each, with \$1,000 added; five furlongs. Violante beat Ballarat by a head. Bravo was third. Time, :5912. Third Race—The Debutante stakes; for two-year-olds; \$50 each, with \$1.250 added; five furlongs. Sallie McClelland won; La Tosca second, Esperanza third. Time, :59.
Fourth Race—Toboggan-slide handicap; \$200 each, with stakes guaranteed to be worth \$10,000; six furlongs. Fides, closely followed by Tormentor, Madstone and Blue Rock, made the running in the middle of the track, with Geraldine close up, hug-ging the outside rails. At the stand it became a duel between Fides and Geraldine, with the former winning by a length. Geraldine was second, a length before Blue Rock. Time, 1:1014.

Fifth Race—For two-year-olds; \$20 each, with \$1,000 added; six furlongs. Blithe won by three lengths, with Monterey second and Sequence colt third. Time, 1:15.

Sixth Race—A sweekstakes of \$15 each, with \$750 added; one mile and a furlong. Admiral won by a length from Clay Stockton, who was second, three lengths in front of St. Valentine, third. Time, 1:55.

BURIAL REFORM.

Earth to Earth Burial Advocated by the New York Funeral Reform Association.

Nature has her own method of resolving all flesh into dust. By scientists it is called surface affinity. It is really a cremation by slow burning. If a round of beef is buried in loose dry soil, and taken up after six months, the outside will be charred as if it had been in contact with fire, but at the center the meat will be sound. No corruption or disagreeable, dangerous odor attends the process. Wild animals bury their food to preserve it from putrefaction.

Earth-to-earth burial, as advocated by the Burial Reform Association, aims to have the body placed in the ground with very slight protection, so that the soil may speedily act upon it with this slow, natural cremation. The body would be put into a light papier-mache coffin and covered with dry earth; the coffin very soon falls to 8. In four years the body will be cremated by nature's slow, healthful process, simply from having been in contact with the earth. Worms do not infest a body thus interred—they are to be found only in bodies which are incased in heavy sealed caskets.

The financial aspect of burial reform should be carefully thought over by those who can afford expensive funerals without being forced to distressing economy or to embarrassing debt. Let the wealthy set the example of simple funerals and they will confer a benefit upon the poor who are so given to assume burdensome financial obligations in order to pay tribute to their dead by an imposing pageant and a showy coffin. It has already happened that families have so impoverished themselves by a funeral that they have had to apply for assistance to the charity fund of the church. The sentiment that inspires such extravagance is insincere and begotten of s wish to outdo one's neighbors in display. Education by example on the part of the rich and proper teaching from the pulpit and in literature are the only remedies for the evil of pompous exhibitions of grief. Once the people are taught properly to regard the body as a perishable thing the fashion of spending money in a vain show at a funeral will pass away, and those who mourn will not embarrass themselves financially by useless extravagance. Money is of use only for the living, and when an improper amount of it is spent on the dead injustice, in nine cases out of ten, is done to the survivors.

Due respect to the dead can be shown and at the same time economy observed in the selection of a coffin, in deciding on the amount to be expended for the hearse and the carriages, for the pall-bearers and the mourners (pall-bearers are not necessary). in the purchase of flowers, on mourning ap-

parel and on the tombstone. A properly conducted funeral for a private person should involve no pageant. There should be only the hearse and one or two carriages, while the women of the family should always be discouraged from attending at the grave, leaving that office for a few selected male friends. If this custom should become established, other funeral expenses would be proportionate, and, among the well-to-do laboring and middle classes, cases of pinching economy or of incurring debt because of an expensive funeral, would be rare.

Household Hints. A glass of fresh buttermilk every day is an excellent liver regulator.

Dandruft may be cured by rubbing the scalp every other day in borax and water. A few pinches to a cup of water is a good consistency. A linen towl of fine diaper will make two bibs. Cut it exactly in the middle and make the fringed ends the bottom of the bibs. It is best to purchase an entirely white towel, and ornament the ends either

bound with linen tape. The towel should be as narrow as can be procured. Happy the woman who has a plot of grass for a bleaching ground, her linen may be white as snow; and she who has not may use clean boards laid in the sun, and on them whiten her clothes. If as soon as soiled garments are dipped in soap-suds and laid in the sun for a time, then put away perfectly dry to wait the time of weekly washing, they will not grow yellow by lying, and the dirt will come out easily. In the South a great many house-keepers do not boil their clothes in the summer time, but bleach them, and with results even better than from using artificial heat for cleansing.

Tender chickens cooked in the following way are as good as if they were broiled: Open them in the back, season and put them in a baking-pan, with a little water in it. Turn another pan over it, and bake for an hour and a half or two hours accord-ing to the size. If they are not browned enough when nearly done take off the up-der pan. Cut off the neck before putting in the oven, and boil it along with the giblets in half a pint of water. Take the bones out of the neck; cut that, the gizzard and heart into fine pieces. Mash the liver with a spoon, and add them all, with the water in which they were boiled, to the gravy. The real value of old newspapers about a house is fully comprehended by but few. Many people, in wrapping up woolen goods to put away for the summer—a something that must soon be done for the coming season—use clear brown paper. Old news-papers are far preferable, for the ink on them has been observed to be very obnoxious to moths, insects, etc. A great benefit can also be derived by placing a layer of old newspapers upon the carpet paper spread under carpets, as it is a preventive to en-croachments by vermin, which is so often the case. Another useful attribute of paper not generally known is for preserving ice in a pitcher of water. Fill the pitcher with ice and water and place in the center of a piece of paper; then gather the paper up together at the top and twist the ends tightly together, placing a strong rubber band around the coil to hold it close so as to exclude the air. A pitcher of ice-water treated in this manner has been known to stand over night with scarcely a perceptible melting of the ice.

Good Form Before Fancy. Colman's Rural World.

The general farmer cares but little, if

any, about those things that so worry a professional breeder. Curly or not curly; swirly or not swirly; six white points and no more for Berks and Poland Chinas; whether the ear gently droops at the tip or the entire length are questions about which he spends but little thought. It is the welldeveloped form that catches his utilitarian eye. He wants his swine to have a welldeveloped ham, deep side, well-sprung ribs, shoulders that are not coarse, short neck. and he wants them to stand square upon clean and smooth legs. This is the kind of a hog that every farmer is after, and when he succeeds in getting a hog of perfect form, then he may devote his attention to fancy. Profit is what he is after, and to secure it he must breed the hog that will give him the great-est number of pounds of dressed meat for the gross weight, and do so upon the least amount of food, and in the shortest time.

which we must make use of merely to gratify fancy's whim. After you have devoted more attention to the form of your pigs, you can breed to fancy as well.

Why a Doctor Wept.

Lewiston Journal. Dr. Hill's autocratic bearing in the sickroom gave strangers no hint of the deep sympathy which he felt for the humblest of patients. A gentleman entering his office unannounced was surprised to find the doctor with his head bowed over his desk and sobbing convulsively. The intruder was about to withdraw in silence when the doctor wheeled around in his chair, and, with tears streaming down his furrowed cheeks,

"Take a seat. There's no occasion for privacy. I was thinking of little Willie ---, who has been sick with scarlet fever. It was a severe case, but I had it under control. In fact, the boy was out of danger when his aunt, moved by his entreaties, gave him a not doughnut to eat. He's nearer death's door now than he was in the first place, and there isn't one chance in a hundred of saving him."

The gentleman was expressing regret at this said turn of affairs when the doctor, as if ashamed of his unwonted display of feel-

ing, exclaimed impatiently:
"I don't particularly care for the boy; what I am sorry for is that I can't kill his aunt before she has a chance to murder another sick person with her confounded doughnuta"

A Paper to Please Everybody.

Kate Field's Washington. The great journal of the future will be the one in which everybody will have his wants satisfied and his criticism silenced It will be a wonderful sheet, and it will be published a long time—a very long time—in the future. If I were to hazard a prophecy, I should say that this organ of universal opinion will make its appearance about the time our race gets upon its last legs—its last pair of legs. It will be edited by the single man who is left behind to wind up the affairs of defunct humanity, and close the book of history. He will have a lonely time of it, perhaps, in other re-spects, but he may find consolation for his lack of companionship by the reflection that he can at last have a newspaper which will just exactly suit everybody who reads
